STRIATO

The Striato pen celebrates the graphical play on stripes that defines the collection, interpreted here in its most luxurious expression. Its generous, sculptural silhouette is crowned with an oversized cap wrapped in a pattern of progressively tightening pinstripes, creating a sense of movement and visual precision. The result is a resolutely luxurious writing instrument with a distinctive graphical twist, where refined pattern work meets timeless elegance.

MERIDIEN

The Meridien pen reveals a futuristic, angular silhouette defined by a precise sequence of vertical and horizontal deep-engraved stripes. This graphic interplay forms a modern interpretation of the timeless herringbone pattern, giving the pen a sense of movement and structure. The minimal matte gunmetal plating reinforces its clean geometry, resulting in a piece that feels confidently modern and distinctly architectural.

STRIADE

The Striade pen brings a refined twist to a classical silhouette, exploring the interplay of two pinstripe scales arranged across its cap. This contrast lends a subtle industrial spirit to the design, adding texture and character while preserving a minimal, balanced presence as a writing tool. The result is a piece that feels thoughtfully engineered, with a considered graphical detail that elevates its timeless form.
